

POWER OUR PRACTITIONERS

... a virtual fundraising challenge.

Together, we can ignite a spark of hope, supporting over 600,000 Australians with ME/CFS, long COVID and other energy limiting invisible diseases.

By Powering Our Path at Emerge Australia to educate GPs about diagnosis, management and treatment of these conditions, we can address gaps in evidence based clinical knowledge and build confidence to improve outcomes for people living with these debilitating conditions.

A word cloud is set against a background of soft, out-of-focus blue and green bokeh lights. The words are in various shades of blue, green, and purple. The most prominent word is "give back" in large white letters. Other visible words include "support", "kindness", "love", "community", "generosity", "compassion", "volunteer", "service", "share", "now", "time", "gratitude", "altruism", "friendship", "offer", "humanity", "unconditional", "make a difference", "unite", "gift", "thank you", "charity", and "abundance". In the bottom right corner, a realistic illustration of a human hand is shown, palm up, as if offering something.
